

**Dear Ladies and Gentlemen!**  
**We invite you to take part in the  
International Investment Summit**  
September 17-19, 2009 in Donetsk

**On September 17-19, 2009** the largest industrial region of Ukraine will discuss questions of energy-efficiency in the frameworks of the International Investment Summit.

Investment Summit – the largest regional annual Event in Ukraine. It attracts constant interest of foreign and domestic companies, which are interested in development of business in Donetsk Region; central and local authorities; representatives of all branches of Donetsk business.

Organizers of Summit will concentrate on the most important topics of the Region – ENERGY-EFFICIENCY.

**The main goal of the project:** To find the optimal solutions for construction of energy-efficient model of the regional economy – from the separate enterprise up to the whole region in the dialogue between authorities, scientists, Ukrainian and foreign businessmen.

**Tasks of the project:**

- Demonstration of the modern solutions in sphere of energy efficiency in various industries.
- Analysis of real ways of project financing in sphere of energy efficiency.
- Exchange of the most successful Ukrainian experience in realization of energy projects.

**Target audience of the Event:**

- Heads of industrial and agrarian enterprises of Donetsk Region;
- Authorities of municipal towns of the Region;
- Representatives of Ukrainian and regional science institutes;
- Foreign and Ukrainian companies managing with energy efficiency and alternative energy;
- Representatives of investment companies and banks;
- International consulting companies;
- Representatives of local and central authorities.

National Partner of the Summit – leader of Ukrainian business –Industrial Union of Donbass.

Summit Partners: Deloitte, Ernst & Young, Altera Finance, Innex and Promelectro.

Summit will be held under support of Donetsk Regional Council, Donetsk Regional State Administration and Donetsk City Council, National Agency of Ukraine for effective usage of energy sources (NAES).
